Claim Rejections - 35 USC § 103

1. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

2. Claims 1-27,30-40 are rejected under 35 U.S.C. 103(a) as being unpatentable over Johnson et al (6464169) in view of Sprenger et al (5395075).

The language "configured for utilization on a single deck" is a desired use and does not clearly define structure over that of Johnson et al. It is also noted that an individual step is a "staging area platform" when someone is standing on it waiting to go up or down. It is also noted that the area where the steps are is an open area when the steps are stored and as such is used for storage when something is placed there.

Johnson shows stairs 16 in a stowage unit. It would have been obvious to one having ordinary skill in the art at the time the invention was made to make the stairs of Johnson et al retractable as taught by Sprenger et al since it would provide more room and means to seal off the upper level as taught by Sprenger et al. see column 6 of Sprenger et al.

1. Claimd 28-29 are rejected under 35 U.S.C. 103(a) as being unpatentable over Johnson et al in view of Sprenger et al as applied in paragraph above, and further in view of Youtsey (675916).

It would have been obvious to one having ordinary skill in the art at the time the invention was made to make the retractable steps of the above combination non rotatably retracted as taught by 1 and 2 of Youtsey since it is the mere substitution of one mechanical means for another.

Applicnats remarks have been considered but are not deemed persuasive as they are more specific than what is being claimed.

1. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
